## Projects

## Details

## Outcome

### Blind Sighted Creations

Teens learn job-readiness skills in this student-run business, creating and selling handmade braille jewelry

13 Teens participated in 8 local markets selling products & providing info about LHP services

### STEM Lab

100% accessible lab where students collaborate while learning to code, 3D model, and 3D print

25 Youth learned or were exposed to the fundamentals of coding and 3D modeling and printing

### The Lantern Low Vision Store

Onsite retail store offering a wide range of daily living aids for visually impaired individuals

Convenient onsite shop where clients can test products prior to purchase, avoid online shopping, and receive advice from knowledgeable staff

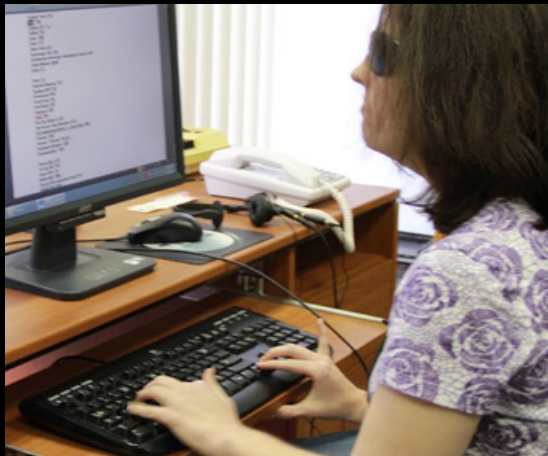

# What Our Clients Are Saying

I learned skills that helped me maintain living independently.

I'm learning how to be safe in the kitchen and when crossing roads.

I'm learning the skills I need to use technology to access information.

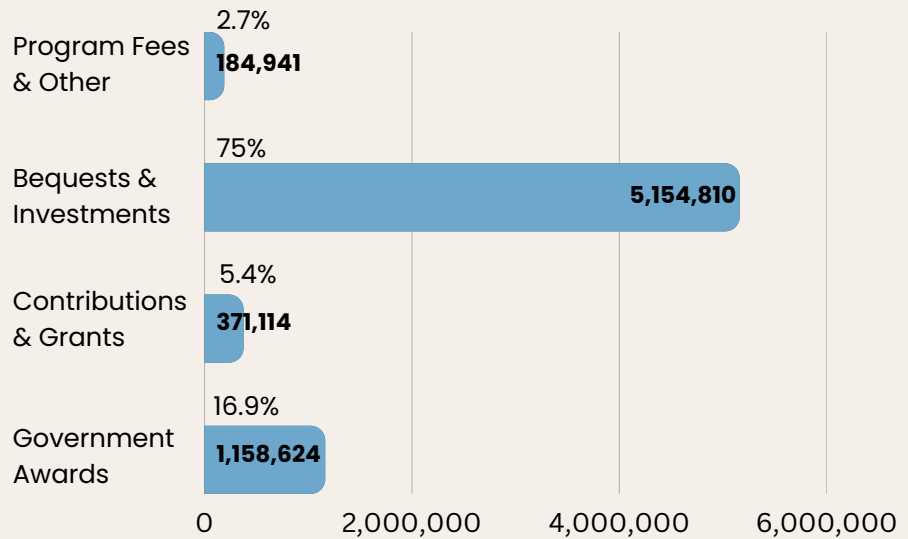

LHP has been a great resource for our family.
